

TALLERES GOZON, S.A.

## QUALITY ASSURANCE POLICY

TALLERES GOZON, S.A. management, considered Quality Assurance as an essential element for guarantee the success of the company, being essential to have a policy in which the entire staff in the organization are responsible for the function they perform.

In this line TALLERES GOZON, S.A. bases its Quality Assurance System in ISO 9001: 2015 standard, which applies to all the processes that constitute your manufacturing field:

- \* **Metallic structures.**
- \* **Medium and heavy machining boilermaking.**
- \* **Equipment goods.**
- \* **Design and manufacturing of pressure and atmospheric tanks.**

The System is pointed to:

- o Full satisfaction of our customers and third parties, clearly identifying their requirements.
- o Improved of the production system continuously applying technological and organizational improvements that contribute to increasing product quality, detecting the needs of expansion and improvement of technical and human resources of the company, gathering information on new technologies applicables to the production, organization and continuous staff training, studying at all times the incorporation of new assets.
- o Maintain continuous quality improvement, establishing the necessary controls to prevent or detect errors in the initial stage and take the required measures to avoid his repetition.
- o Identification and analysis of the risks and opportunities that may affect the organization in order to control and minimize them, and approval of strategic objectives that converge with these principles.

To achieve this, TALLERES GOZON, S.A. Management agree to comply with the requirements established in the Quality Assurance System, continuously improving efficiency and comply with legal and regulatory requirements applicable to our manufacturing. The Management shall inform all stakeholders, in order to achieve compliance and participation.
